

# Brilliant Slide

**MSA®** – New for spherical bearings!

## MAURER Sliding Alloy

**New alloy MSA®** for bearings in bridge and building structures.

- **Shining** – special treatment of the surface for reduced sliding resistance and abrasive wear
- **Resistant to aggressive industrial air** – especially against fluorine and chlorine
- **Superior corrosion resistance**
- **Better economic efficiency**
- **Longer lifetime**

### Our Product Range

- MAURER Expansion Joints
- MAURER Structural Bearings
- MAURER Seismic Protection Systems
- MAURER Vibration Control Systems
- MAURER Monitoring of Structures
